Be sure to order enough for your project.

Slip-resistant treads for indoor or outdoor staircases

- sold by the foot
- specialized coating helps our stair treads to resist chips, dirt, scratches, stains and oil.
- stair treads can be used on exterior and interior flooring surfaces
- Our treads can be customized to complement the existing architecture of any building.

Bold Step Anti-slip Safety Renovation Treads

These stair treads and nosings are an eye-catching, resilient, slip-resistant product for use on steps that require an anti-slip surface. Used in new construction or renovation projects, our treads and nosings deliver maximum safety and durability while providing a look to compliment building designs. Bold Step is strong enough for industrial applications, but attractive enough to be used at your residence.

Designed for use on interior or exterior steps and landings, the treads feature an anti-slip coating system that resists chips, scratches, dirt, stains and oils

Many Standard Colors

Black • Gray • Yellow • White Red • Blue • Green • Brown Glow in the Dark and custom colors are available

Ideal for use on wood steps, ramps, landings, and walkways. Also for use on concrete, steel, terrazzo, slate, and marble, inside or out!

Bold Step Features:

- Anti-slip safety surface
- No removal of existing stairs
- Visibility line safety contrast
- Easily cleaned
- Quick, simple installation
- Reasonable cost
- Long life durability
- Inside or outside use
- Aesthetically pleasing design
- All treads are pre-drilled with countersunk holes
- Fasteners available
- Custom miter cut-outs
