

Epoxy WP-70® Trowel-On Kit

Abrasive Anti-Slip Floor Coating

Two-part anti-slip epoxy system for heavy duty use. A stiff product that must be applied with a trowel and squeegee, which comes in the kit. Product can be applied to wood, metal, concrete or almost any other clean dry surface. Great for industrial and other applications where a heavy anti-slip epoxy coating is needed. For industries such as breweries, canneries, off-shore drilling platforms. Renews damaged ramps and floors in one coat.

- NO FLASH OR VOLATILE SOLVENTS LOW VOC
- Chemical, solvent and water resistant
- Meet OSHA and ADA standards
- Meet ASTM slip resistance requirements
- Kit includes epoxy, trowel, and squeegee
