

Grit Coated Fiberglass Step Covers

Grit-Coated Step Covers & Walkway Panels provide slip resistance, durability and a permanent anti-slip solution. Fiber glass step covers are lightweight and ideal for use on structurally sound surfaces.

- Our Fiber Glass products are coated with a proprietary blend of mineral abrasive epoxy grit. Surfaces such as gratings, mezzanines, steps, inclines, and Ramps
- All are available in three distinct grit coating options: Heavy Duty, Medium and Fine as well as Yellow or Black.
- Specialty sizes and panels are available upon request. Call for details.

Add Slip-resistance to Steps, Ramps & Walkways

Featuring a proprietary coating of mineral abrasive epoxy grit, our fiberglass step covers and walkways provide a lightweight and durable anti-slip surface. With three coating options, heavy, medium or fine, our covers may be applied to any structurally sound surface including steps, inclines, floors, and ramps. These fiberglass covers are a cost-effective way to provide slip-resistant footing to existing surfaces, and combine low maintenance with long service life.

The mineral abrasive epoxy grit is bonded to 0.125" thick thermoset polyester, fiber-reinforced polymer panels. These fiberglass step covers and panels are fire-retardant and easy to maintain. The epoxy grit surface may be swept to loosen and remove dirt, and cleaned with a general purpose industrial floor cleaner and bristle brush. The step covers and walkway panels may also be pressure washed with up to 1000 psi.

Step Covers

- 11.75" depth with 2" nosing
- 9" depth with 1" nosing
- 3" depth with 1" nosing

Grit Coated Fiberglass Step Covers

- Lengths up to 12 feet
- Single color treads in yellow or black only
- Two-color treads, yellow nose with black back

Flat Panel & Walkways

- Black or yellow
- Standard walkway sizes of 30" x 96" and 48" x 96"
