

SwitchBoard Matting

Non-conductive switchboard matting is designed to provide insulation for the worker. Made from a PVC compound, the mat prevents the worker from being grounded, thereby eliminating the possibility of electrical shock. The corrugated saw-tooth top surface provides increased traction and is easy to sweep clean.

- Electrically Insulative Type 2 PVC compound
- Corrugated top surface – Added traction and easy to sweep clean
- Each square foot of this matting is tested in conformance with ANSI/ASTM D-178
- Class 2 Di-electric Strength: 30,000 volts
- Proof test of 20,000 volts
- Recommended maximum use voltage: 17,000

Standard Sizes (Approximate)

Size	Qty. 1-5	Qty. 6+
2' X 75'	\$974.00	\$925.30
3' X 75'	\$1327.15	\$1260.79
3' X 75'	\$1327.15	\$1260.79
4' X 75'	\$2132.00	\$2025.40
